HELP MAKE CANADA <u>POISON</u> <u>FREE</u>!

End predator poison-programs today and forever.

Please cancel all registrations for the use of Compound 1080 – and ban this poison permanently. 1080 is inhumane and NOT 'canid-specific', causing many non-target deaths. Victim dispersal due to delayed effects has led to an under-evaluation of the risk this poison poses. No beings deserve to die this way.

MESSAGE:

Address your postcard to one of:
Premier, MPP/MLA, MP, Health Canada Minister
